SANTO DOMINGO & SANTIAGO

SHOP IN THE US AND WE WILL SHIP TO YOUR DESIRED DESTINATION IN THE DOMINICAN REPUBLIC

We provide transport and custom clearance from all major ports in the Dominican Republic to any destination within the country.

Most USA stores do not make international shipments, and if they do, the rates are very expensive. If you want access to the stores with latest fashions, furniture, appliances, electronics, or unique gifts, no worries we are here to deliver. Whatever you want to buy, we'll get it to your doorstep in a matter of days.

OUR SERVICES

Ocean Freight: Ocean freight transportation is one of the most reliable and economical forms of transportation for most types of cargo/packages. Our maritime services respond to individual client needs and situations and due to the need for fast and efficient services, we ship containers weekly to the Dominican Republic.

Air Freight: We have access to daily flights to Dominican Republic and all parts of the World. You can have your shipments arrive at our warehouse and we will insure and export them in compliance with all government and industry regulations. This method of transport is for packages/cargos that need to arrive in an "express" manner to their destination as it is costlier than maritime transport.

Online Shopping - You Shop We Ship: It does not matter where in the world you live, technology gives you the opportunity to purchase items via the internet, catalog, or telephone in the USA. If you have a credit card to use for your purchases, our team will facilitate their transport to Dominican Republic, the Caribbean, Central and South America, Europe and Asia. All you need is to ensure your purchases arrive at our warehouse in Miami, and we will transport it to your doorstep in no time.
